Sotto l'alto patronato del Presidente della Repubblica Giorgio Napolitano

Throughout its history, Parma has always been a dynamic city, at the crossroads of different cultures with their exchanges and meetings.

This is easily recognised just by looking at the evidence written on the city's stones, on its monuments, in its archives, but mainly in the works and memories of the people who lived there.

"Festa della storia" will try to highlight and promote some of the city's unique features that are products of the work and creativity of the past generations.

We are thankful to DiPaSt and to the management of "Festa della Storia" for the chance of adding Parma to the tradition of this important event.

We would also like to thank all those who supported us from the beginning.
